**MINING NEWS, MOHAVE MINER**

## CHAMBER OF MINES FAVORS GOV. DAM

Last Tuesday's meeting of the Chamber of Mines and Commerce was taken up largely by a talk on the development of the county's mineral resources and the building of the Boulder Canyon Dam. The meeting went on record with a resolution favoring Secretary Fall's plan of the government building the dam at Boulder Canyon.

R. S. Billings, delegate from the Mohave County Chamber of Mines to the American Mining Congress, was wired to this effect. Mr. Billings had previously wired the Chamber of Mines that he was endeavoring to line up the Western representatives at the convention on the Boulder Canyon Dam.

According to the wire from Mr. Billings they were deferring action until the arrival of Colonel Greenway of Arizona.

The headquarters of the Chamber of Mines will be gradually fitted up for the benefit of visitors. Some pictures have already been hung on the walls and maps will also be hung. Ore specimens will be labeled and left on display. Anyone having specimens is requested to bring them in.

**BIG BORAX FIND NEAR ST. THOMAS**  
(Continued from Page 1)

another company has also secured valuable ground there and is developing their holdings. The Pacific Borax Company has a shaft down on the deposit quite a distance and have cut more than 20 feet of clean borate.

At the Smith property a crosscut is being driven into the vein, which stands perpendicularly, and have a wonderful showing. The two deposits

are the most wonderful ever opened on the coast. The first deposit was discovered through a dream in which it was revealed to Mrs. Harry Gentry, of St. Thomas, the location of the mine, a sale being made of it within a month after discovery to Mr. Smith, who has been one of the largest producers of borax in the world the past 20 years.

The borax in found in association with gypsum, although there is really no connection between the two materials. The whole territory from St. Thomas to the Colorado river is a field of salt, borax and gypsum, the salt being the purest ever found in nature. A million tons of solid blocks of salt are lying on the surface of one of the salt mines, while other localities show masses of softer material. The whole region is one of the most important in the country. It will eventually furnish that region with attractive possibilities for investment. While salt is a cheap commodity, the fact that this territory can furnish it without the expense of mining should make it worth while to the big producers of the sodiums.

**LADIES' AID**

## WALTER DELIERE DIED WEDNESDAY AT BAY CITY

Walter Deliere died at the home of relatives in Concord, California, last Wednesday, after a short illness. The funeral date has not yet been announced, but will take place in San Francisco under the auspices of the Elks, Mr. Deliere having been a member of the Kingman lodge of Elks. Deceased was born in the state of Nebraska about 43 years ago, but had resided in Arizona and California many years. He was interested in mining property in the neighborhood of the Copper Giant mines, eight miles east of Hackberry, and was well known here. His death will cause regret among his numerous old time friends in this country.

## ST. JOHN'S METHODIST EPISCOPAL CHURCH

Rev. T. H. Dodd, Minister.  
Bible school—10:00 a. m.  
Morning service—11:00 a. m. Subject, "A Risky Investment."  
Evening service—7:30 p. m. Subject, "How Much Can We Know About God?"

The Question Drawer will be opened at the evening service and the following questions answered:

1. Will you please say something about our growth in crime?
2. What is the explanation of the present revolt against the authority of law?
3. Is the threatened strike against the railroads or against the government?
4. Is the Protestant church on a decline?
5. How do you account for the rapid growth in the membership of the Roman Catholic Church?
6. What does the latest religious census say about the Mormon, Christian Science and Jewish churches?
7. Is the Golden Rule practicable in business today?
8. How much can we know absolutely about God?

The choir, under the leadership of Mrs. Tafael, will render special music at both services.

Special music Sunday at M. E. church.

Morning service—"Nearer, My God to Thee, by Male Quartette."

Evening service—Gospel Solo, by Mrs. R. M. Tafel.

## WILL FURNISH LEGION HALL

E. Ross Householder and K. H. Davis made the rounds of the Kingman business houses this morning with a subscription list for the furnishing of the American Legion Hall. They called on about 40 people and had but one turn down. They collected close to \$100.

## BRADSHAW HERE WITH MINING MEN WHO WILL INSPECT DIAMOND JOE

E. C. Bradshaw, of the Silver Trails Mining company was in Kingman yesterday to meet and accompany L. D. Adams and C. H. Denricke to the Diamond Joe mine, where these gentlemen will make an investigation of that property. The gentlemen are very much interested in the county in general and believe it has a wonderful future in mineral development.

The Diamond Joe mine has been developed to a point where it gives every evidence of becoming a big producer of gold, silver, lead and copper. A good plant has been put on the mine to carry on work economically and there is a mill close by that is capable of handling a fairly large tonnage. During the years gone by the mine has produced very rich silver ore, and leaving a large tonnage in the stopes and dumps. Further development of the mine has brought to light better ore and it is quite within the probabilities that deeper workings would bring still better ore and longer ore shoots. The mine is a sure winner under proper management and financing.

## MARRIED AT MALDEN MASS

Tom Pearson of the Mohave Lumber Co. and Miss Dorothy Walker of Malden, Mass., were married at the bride's home on October 5.

Many beautiful and valuable gifts were received by the happy couple, a number coming from England.

After an automobile honeymoon in the Berkshire mountains, Mr. and Mrs. Pearson left for Kingman, arriving here last Friday. Mr. Pearson has been with the Mohave Lumber Co. the past six months and stands very high in his profession.
